

Background

Solid Organ Transplantation

- The Organ Procurement and Transplant Network (OPTN) is a national system that links Organ Procurement Organizations (OPOs), transplant centers, and histocompatibility laboratories
 - Administered by the United Network for Organ Sharing (UNOS)
 - Manages the national transplant waiting list and works with OPOs to match donors with recipients
- Expected waiting periods for new transplant candidates:
 - Kidney: 5 years
 - Liver: 11 months
 - Heart: 4 months
 - Lung: 4 months
 - Pancreas: 2 years
 - Kidney/pancreas: 1.5 years

Patients on the Waiting List vs. Transplants Performed

By Organ in 2020

*Other includes allograft transplants like face, hands, and abdominal wall.
