

**T wave inversions in the inferior (II, III, aVF) and right precordial leads (V1-4)
(specificity up to 99%)**

T wave inversions in the inferior (II, III, aVF) and right precordial leads (V1-4)
(specificity up to 99%)

“Classic” $S_I Q_{III} T_{III}$ pattern: deep S wave in lead I, Q wave in III, inverted T wave in III
(20%, low specificity)
