Flow diagram for the recruitment of patients into the trial. HEART, History, ECG, Age, Risk Factors and Troponin.

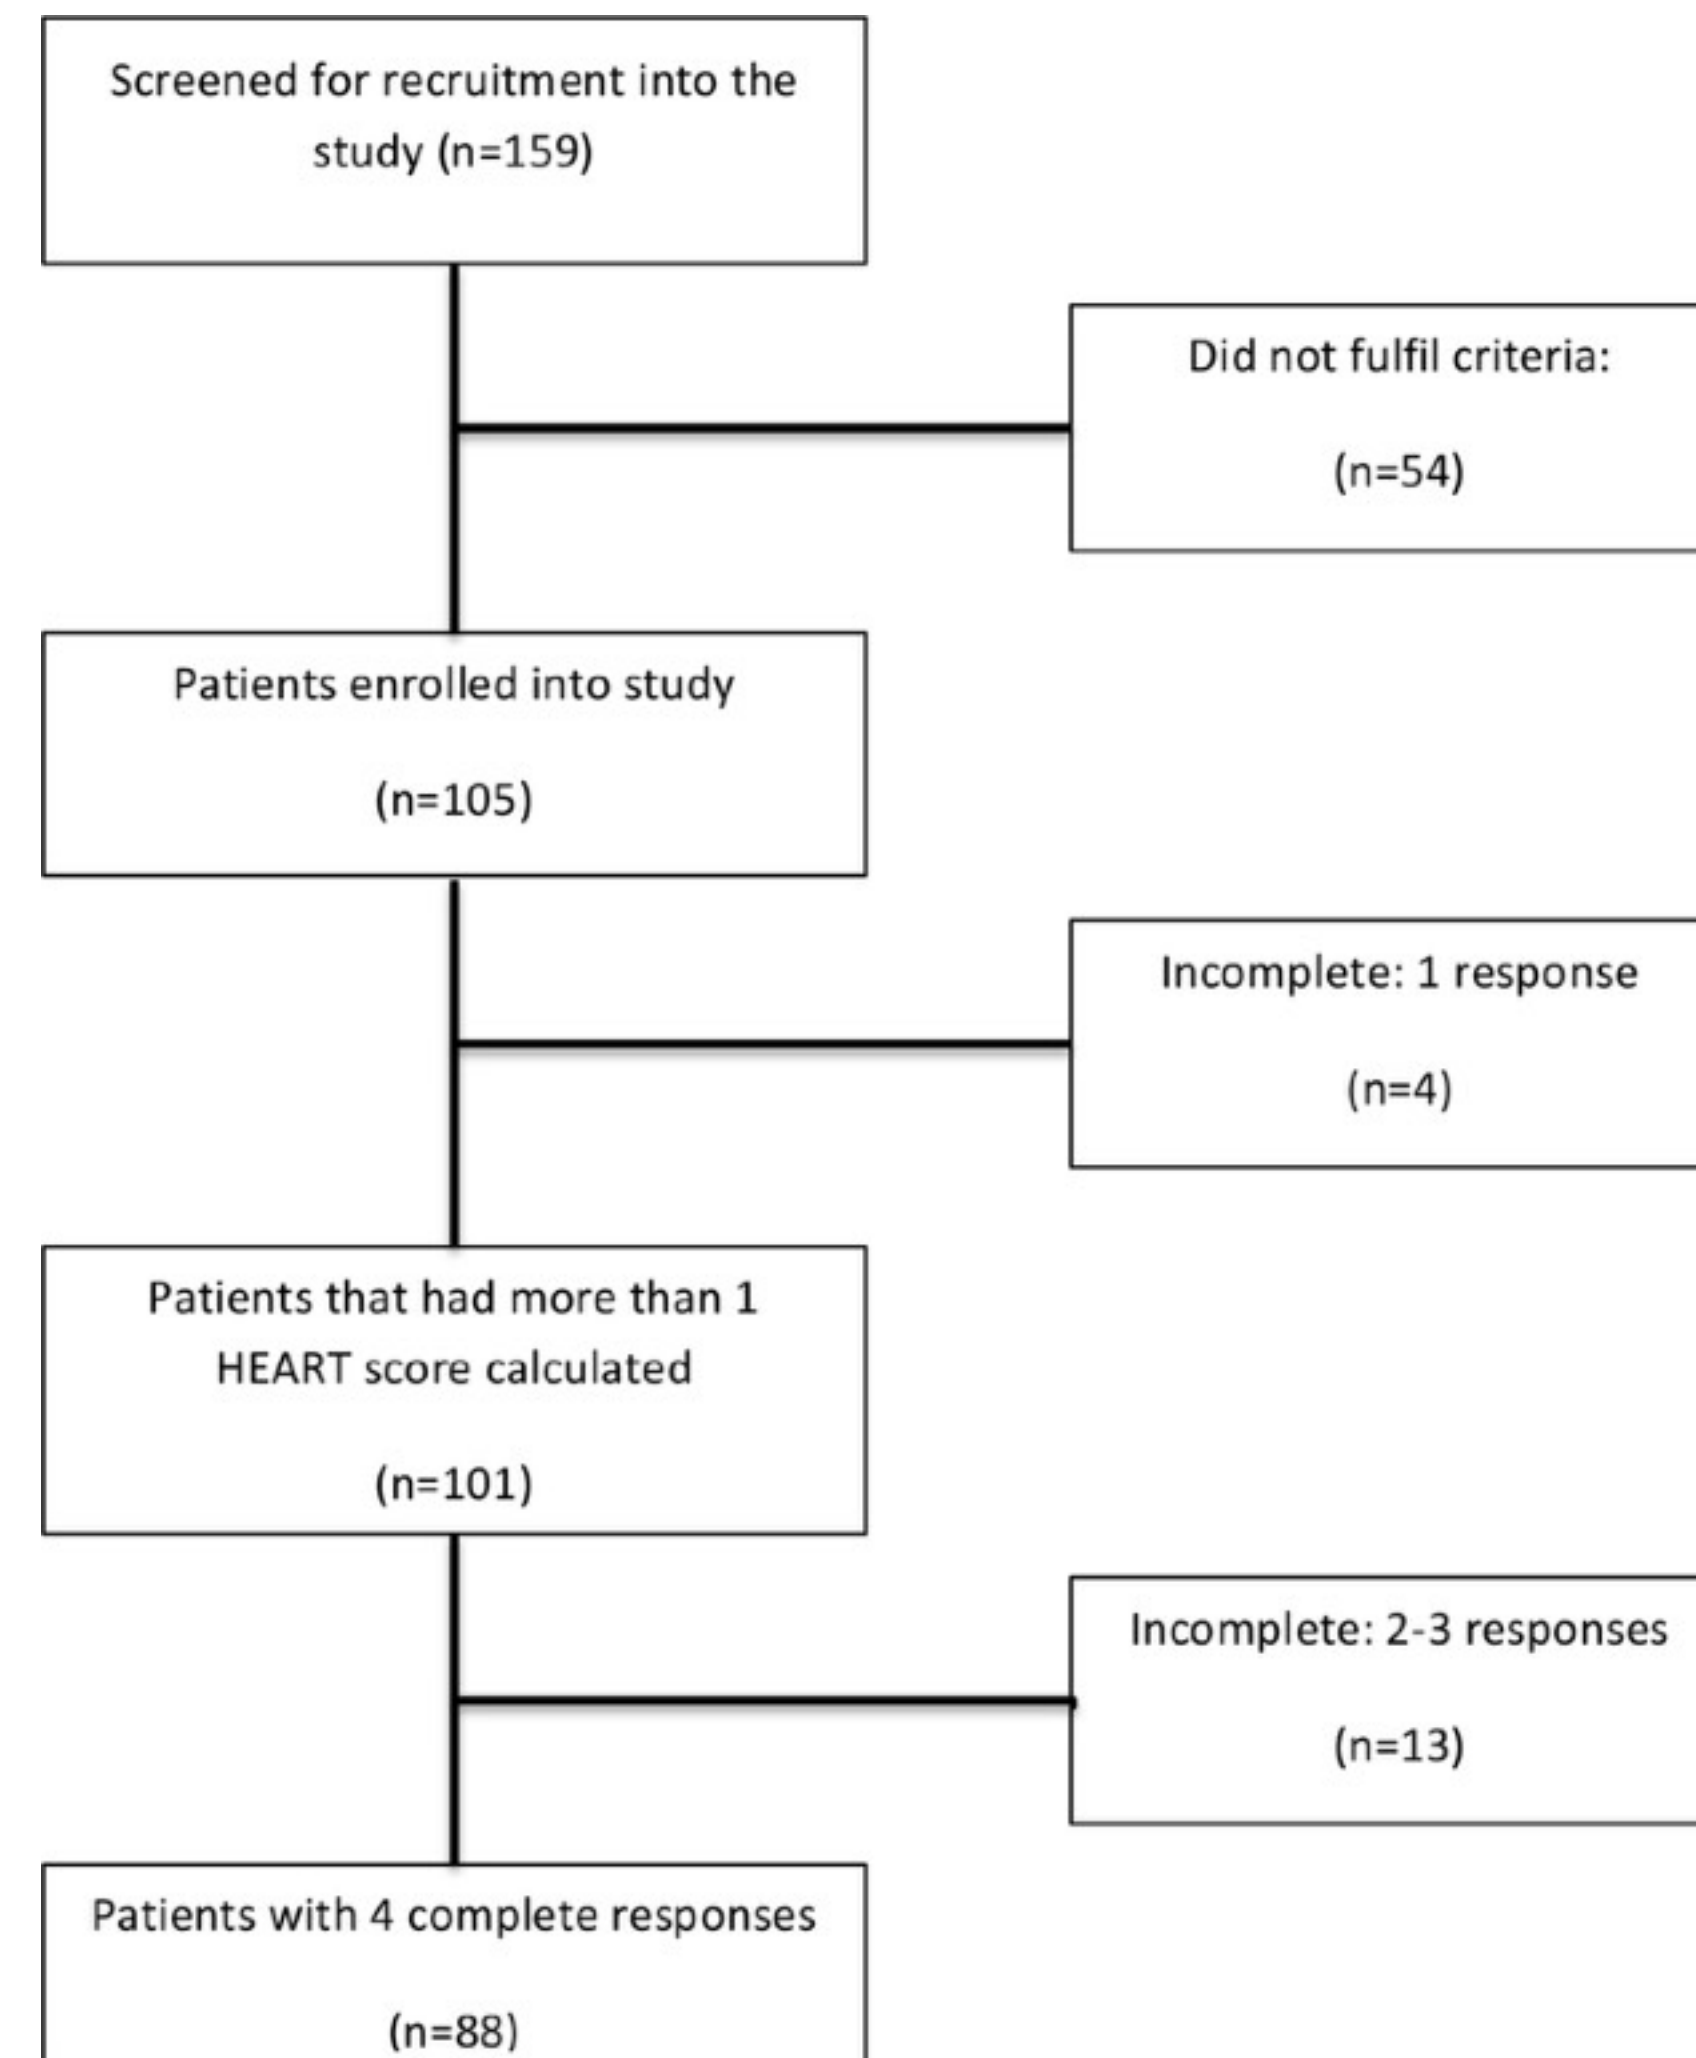

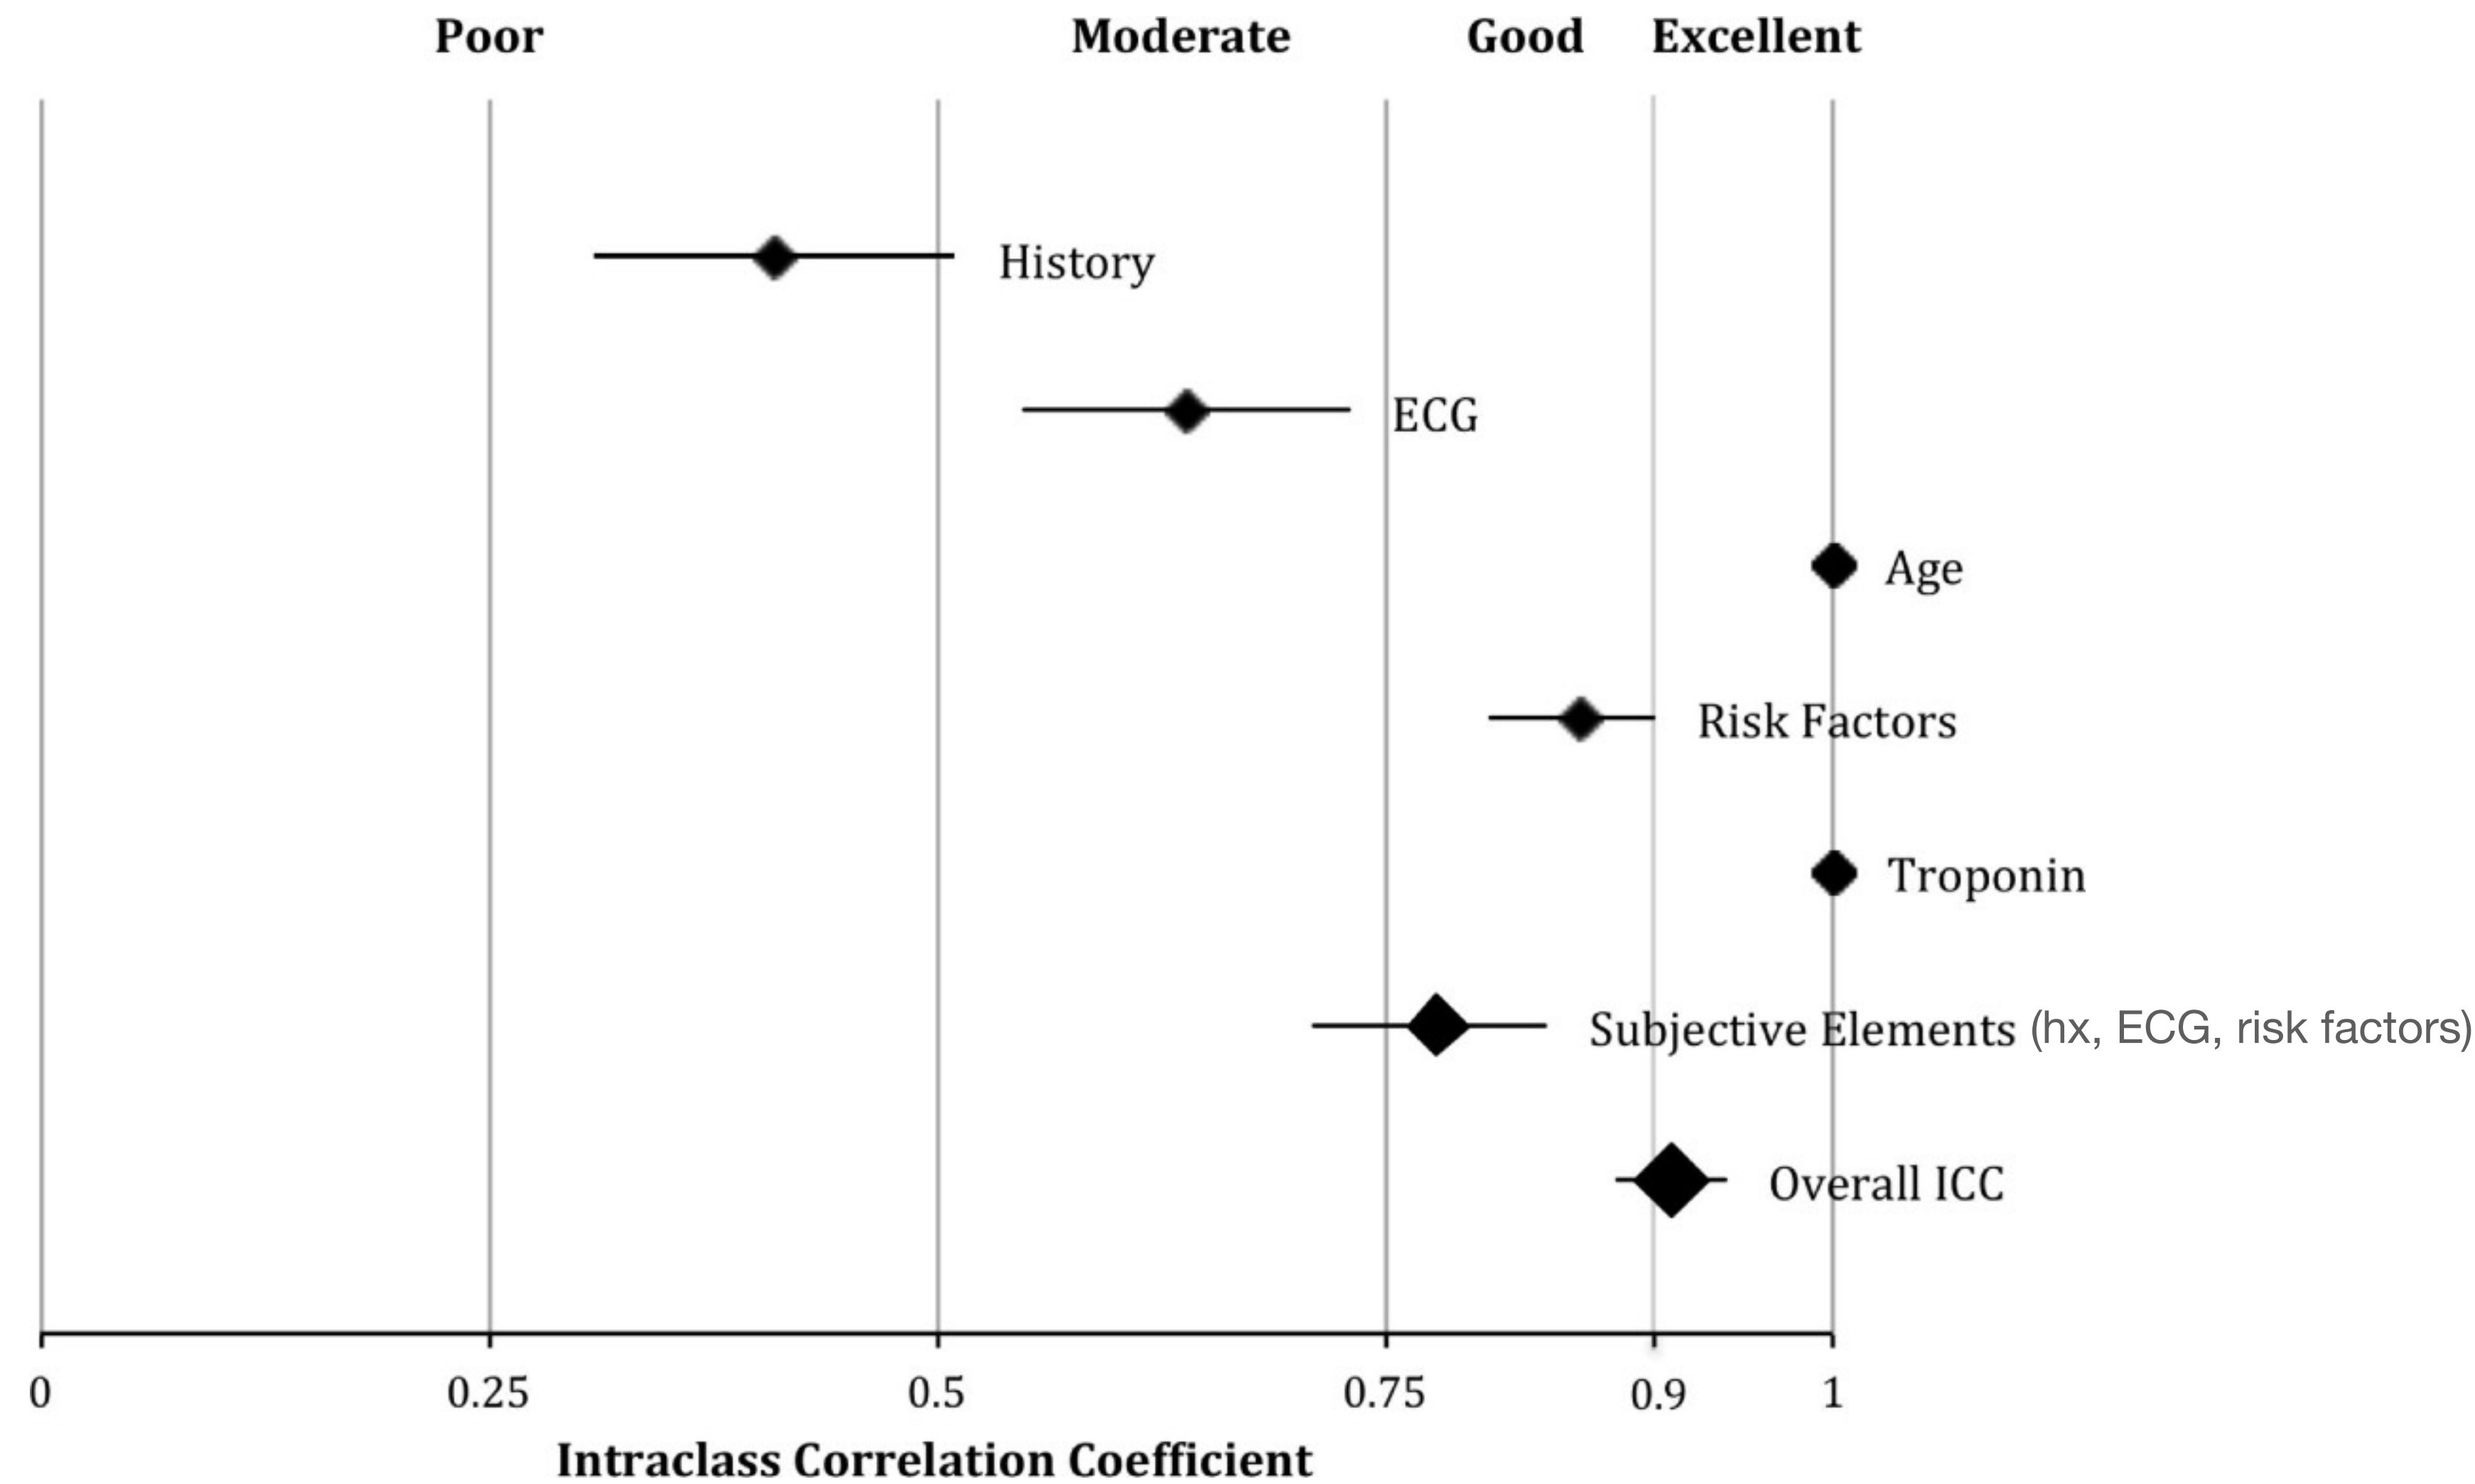

Screened for recruitment into the study (n=159)

Did not fulfil criteria:

(n=54)

Patients enrolled into study

(n=105)

Incomplete: 1 response

(n=4)

Patients that had more than 1 HEART score calculated

(n=101)

Incomplete: 2-3 responses

(n=13)

Patients with 4 complete responses

(n=88)

William G P Niven et al. Emerg Med J 2018;35:732-738

Intraclass correlation coefficients (ICCs) for the History, ECG, Age, Risk Factors and Troponin score.
